ISSUE #204

Editor - Bill Mixon

AUGUST 2021

302-945-1627 P. O. Box 479, Ocean View, DE 19970

July was a very active month for our club. Our president, John, has documented much of it in his posts. Rather than repeating, I felt it is best to just show the activities in Dave's pictures.

## TRAIN LOAD YARD SALE

**Bill Lannon gives a high five for the Train Load Yard Sale.**

**Bill Mixon, Bob Schadewald, John Hodges, Earl Michael, & Dan Forsyth at the last public event at the old Dagsboro Club House on July 3, 2021.**

**The last Train Load Yard Sale at the Dagsboro club house on July 3, 2021.**

**Chris Karr brought his family to the train yard sale.**

**Frank Parrino and his grandson watch Earl Michael run O gauge trains with Paul Moore, engineer, at the controls at the end of the layout.**

**Jessie & John Pieplow talk "shop" with Bill Mixon during The last Train Load Yard Sale at the Dagsboro Club House on July 3, 2021.**

# THE MOVE

**Steve Cawunder & Bill Ziegler prepare the drywall for painting the walls of the new Club House.**

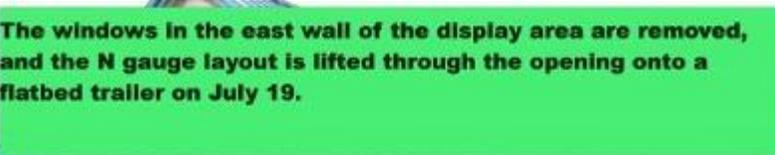

**Cabinets being installed in the sales area of the new Selbyville Club House.**

**John Burik removes scenery from the O gauge layout on July 6 for the move to the new Selbyville Club House.**

**The N gauge layout is covered with plastic wrap, attached to two wooden beams, placed on a cart, & the legs removed.**

**The windows in the east wall of the display area are removed, and the N gauge layout is lifted through the opening onto a flatbed trailer on July 19.**

**Bob Mericsko & John Raleigh power wash the cement floor of the new club House.**

**After being rolled into the new display room on the cart, the legs are replaced on the N gauge layout and the cart is removed.**

**After being covered in plastic wrap the HO gauge layout is lifted through the opening of the east wall on July 20.**

**Due to the wide load, the trailer with the HO gauge layout is driven down the side of the highway to the new Club House.**

**The HO gauge layout is attached to the two wooded beams and the cart, and the legs removed on July 19.**

**The O gauge layout is lifted through the rear window opening in the old Club House.**

**The one half of the O gauge layout arrives thru the opening in the west wall of the new Selbyville Club House. It was rolled past the HO layout into the north hall display area.**

**Tom Galish checks the S gauge layout in the north hall of the new Selbyville Club House. Through the doorway the HO layout is seen in the south hall.**

**Phil helped John Burik load tubs and boxes of small items into John's auto on July 26.**

**On July 26 Tom Galish, John Raleigh, & Bill Ziegler load the club covered trailer with items left in the old sales area.**

A special THANK YOU to Doc for his great organization of the move, and to John for his outstanding leadership, and to all club members and friends who carried out the move.

The pictures here are but a few of the over 1,400 taken by Dave.
