Engineer's Two Cents

Happy New Year everyone!

For the benefit of those members who could not attend our December meeting, and/or have joined the club in the last 3 years, permit me to introduce myself. I was the Engineer from 2007 until late 2011. I have been a member since the inaugural year of our club, 2004. I wanted to get back into the club leadership, not because of any issue with our current officers; much to the contrary and I applaud the job done by Dave Lawrence and all our directors. I knew Dave wanted to step down from the lead job, and volunteered to serve on the board in any capacity. 'Lucky me' that the rest of the officers were happy to remain in their current positions!

Anyway, I am really looking forward to continued growth in our club. With the establishment of a new "We need a Home" committee, the impressive new layouts our gauge committees are working on, and a really great showing in volunteerism to support our functions, we are poised for a successful 2015. I also hope to see continued interest in our monthly meetings, and we expect to continue with providing interesting topics and guests in our meeting programs. In this light, I have echoed members' wishes in inviting Dave Lawrence to continue to provide topics for the monthly meetings, including the photo gallery of our club's activities in the past month.

Before I close, I want to wish everyone health and best wishes for a safe and prosperous 2015. I will be in the Naples, Florida area u n t i l February, so I will miss the first meeting of the New Year, but look forward to seeing you all in February.

John Hodges
